# Travel considerations at the Parliament

- City centre location
- 1 campus
- Ok ish transport links
- 129 MSPs – separate businesses
- Business days
- Recesses

Figure 1. Main mode of transport to the Scottish Parliament

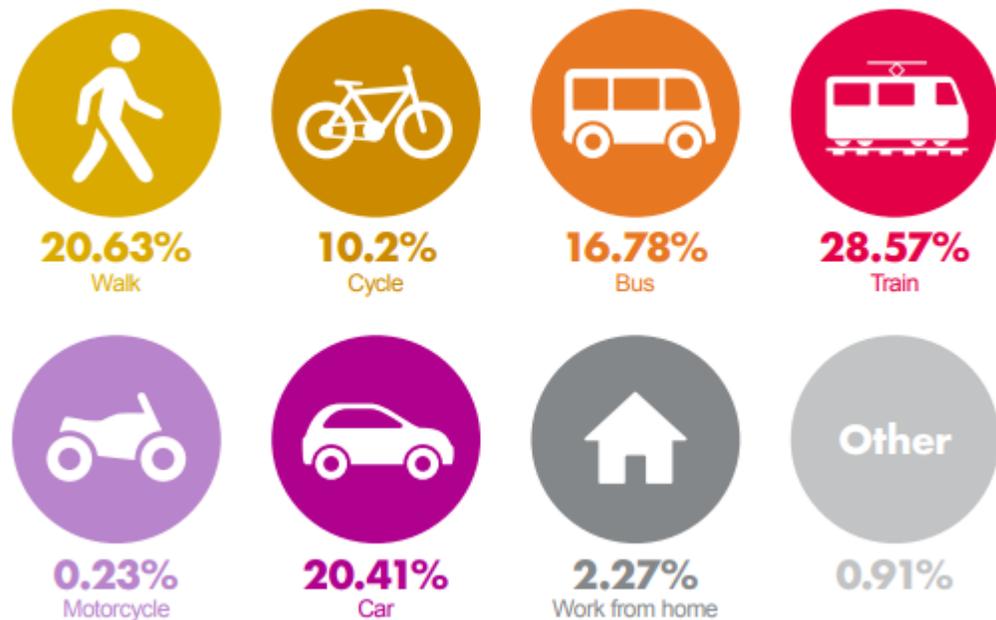

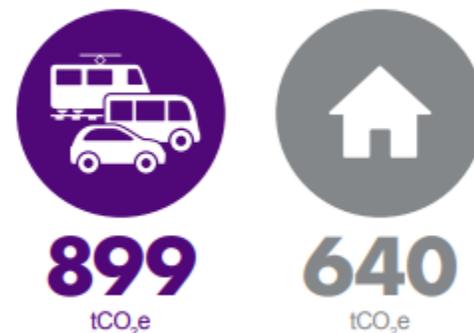

Figure 2. Annual commuting versus homeworking emissions across all passholders (for context, the average person in the UK emits 13 tonnes of CO<sub>2</sub>e per year).

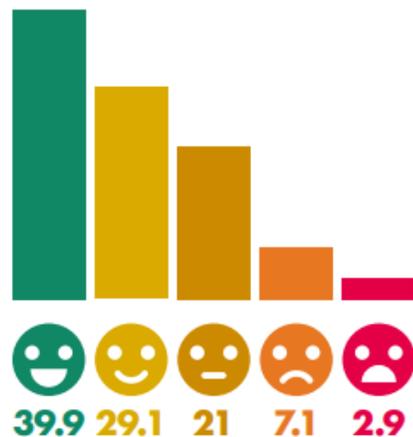

“Flexible working lets me avoid busy times, making cycling to work easier and safer”

Spread the cost of your bike purchase with the [Cycle2Work](#) scheme

Figure 3. Views on introducing a target to reduce business travel (%).

Data taken from 2022 Travel Survey and [Sustainable Development Impact Assessment Tool](#)

**441 respondents to survey:**  
SPCB staff 66%; MSP staff 25%; MSP 5%; contractors 2%; media 1%; other 1%.

Data from the survey was extrapolated over 3191 SP passholders. Home working calculated using data from survey and 2022 DEFRA emission factors. Further details on carbon can be found in our [Carbon Management Plan](#).

### Scottish Parliament Travel Initiatives

- ✓ Active travel champions
- ✓ Bike repair sessions
- ✓ Showers and changing rooms
- ✓ Drying Rooms
- ✓ Cycle2Work scheme
- ✓ Online travel routes
- ✓ Season ticket loan

“We will have a sustainable, inclusive, safe and accessible transport system, helping deliver a healthier, fairer and more prosperous Scotland for communities, businesses and visitors.”

“Although business travel for the Scottish Parliament might be small compared to other organisations, it is important we set ambitious targets to set an example for other organisations and do our bit to tackle the climate crisis”.

# What next?

- 66% reduction in carbon emissions by 2026 (scope 1, 2 and water, waste and business travel)
- Net Zero by 2038 (scope 1, 2 and water, waste and business travel)
- Net Zero by 2045 (all emissions)
- Sustainable Travel Plan
- Business Travel Policy, Processes and Practices
- Embedding Sustainability thinking into NWOW
