## Mark McAllister

**New South Glasgow Hospitals** 

NEW SOUTH GLASGOW HOSPITALS DESIGN STATEMENT

#### Impact of NSGH in South West Glasgow

Independent analysis to quantify impact of investment - jointly funded by partners

NSGH development is seen a a catalyst/ driver for regeneration activity in South West Glasgow

Direct /Indirect Economic Impact of £30 - £40 million pa in South West Glasgow

Employment - net gain for South West Economy in the long term. Currently 20% (approx 800) of workforce reside in G51/ G52. If 20% ratio maintained in future = approx 2000

Realisation of life science/ bio-medical potential and growth of new industries requiring a skilled workforce

If impact is to be maximised - need to ensure future skills and workforce needs are available in South West Glasgow

Impact can only be delivered in partnership

#### Why focus on South West Glasgow?

Scale of NHS investment in South West is a real catalyst for change, driving innovation, integration and collaboration

Well established/ robust partnership structures in place to support joint working

NHSGG&C committed to work in partnership and support broader social, economic and regeneration objectives

Recognition that regeneration effort needs to focus on people as well as place, connecting communities to opportunities

Opportunity to 'road test' new ways of working to support closer collaboration across Greater Glasgow and Clyde

Maximising impact of NHSGG&C investment by retaining economic benefit in the local community

### Making it happen...

Raising aspirations - a sustained programme of activities with schools to communicate future opportunities for young people presented by the NSGH

Recruitment planning - the development of an integrated plan to support local recruitment to non-professional posts

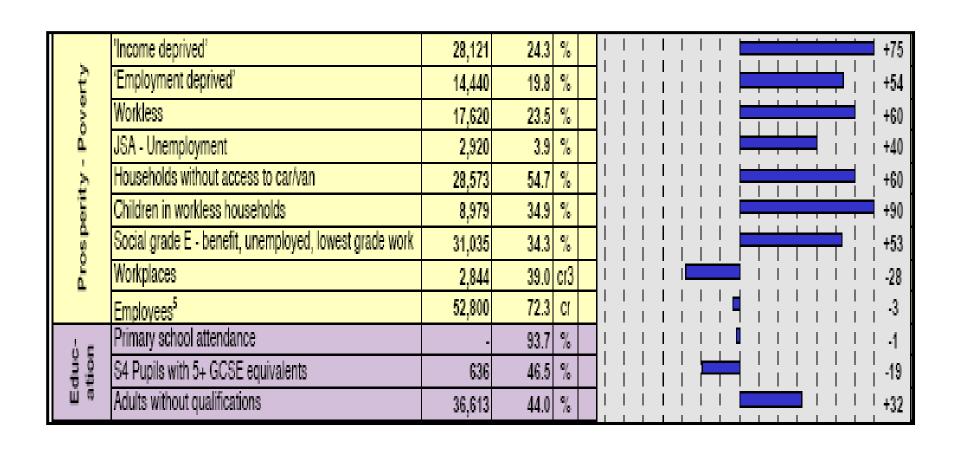

Education pathway - development of an integrated plan to support progression to professional qualifications

Readiness for work: the development of a readiness for work programme focused on the opportunities offered by the NSGH for those presently far from the labour market

Skills and training: improved linkages with NHS workforce development function for FE colleges to develop a shared action plan to address needs and opportunities of mutual interest

.
