

Schools, poverty and health

240,000 children and young people in Scotland live in low-income households

That's nearly 1 in 4 children in our country

It's not right that poverty affects how well children do in school

Reducing or removing school costs will help every child participate equally:

★ subsidising clubs, trips and learning materials

★ ensuring transport is not a barrier to extra-curricular study and activities

✓ The Pupil Equity Fund (PEF) can be used for such costs ✓
